HAND BOOK OF RIO DE JANEIRO

A SECOND EDITION of this useful guide book is now in course of revision and will be published about the end of August. It will be considerably improved and enlarged. A few good advertisements will be received. For terms and other information apply to the Editor of *The Rio News*.

WEST COAST ITEMS.

—The arms and munitions purchased in Europe by General Körner, are beginning to arrive in Chili.

—A Santiago telegram says that the Chilean ministers to various South American countries have been called home for instructions.

—The irrepressible Walker Martinez has interpellated the Chilean government in regard to the visit of President Campos Salles to Buenos Aires.

—A Lima telegram of the 10th inst. says that the Chilean ex-minister of foreign affairs, Sr. Urmeneta, has had a most important interview with President Romaná in regard to Pacific coast questions.

—The income of the Chilean state railways (central system) in July, amounted to \$559,977.04; and the expenditure to \$1,115,500.97. In August the expenditures exceeded the income by \$492,605.81.

—An exceptionally important statement was cabled from Lima last week—and has not been contradicted—that the Chilean minister at that capital had proposed to the President of Peru the division of Bolivia among the contiguous countries.

—Advices from New York state that the revolution in Colombia is still going on. The people are impoverished and are suffering the greatest hardships, but still the miserable struggle proceeds. Self-government is a beautiful theory, but for such a people it is nothing less than a calamity.

—During several days past there have been tumults in the streets of Lima, arising from a deeply rooted opinion that President Romaná was using his power and influence to shield the ex-minister of finance, Belaunde, from the consequences of his acts. It is reported that Belaunde was entrusted with a large sum of money for remittance to Europe for account of the government, but instead of remitting the money he kept it and drew bills on somebody in Europe and they were protested. Since the rioting Belaunde has been arrested and lodged in gaol and will be tried for his offence. Like Romaná, he is a native of Arequipa.—*Chilian Times*, Oct. 6.

RIVER PLATE ITEMS.

—The Paraguayan health authorities deny that cases of bubonic pest have appeared at Villa Concepcion.

—The Buenos Aires press has renewed its campaign for restrictive measures on the propagation of pulmonary tuberculosis.

—The Brazilian journalists visiting Buenos Aires set out on their return on the 9th inst., making a brief call at Montevideo.

—During the first nine months of this year there were exported from the port of Rosario 726,348 tons of wheat 166,833 tons of maize, and 62,734 tons of linseed.

—A Buenos Aires telegram of the 8th says that 15 steamers in the port of Salto, on the Rio Uruguay, had been damaged by a violent cyclone, which had passed over that place.

—The municipality has purchased a pair of carriage horses from Casares' estancia in Cañuelas for \$800, which has been presented to the President of Brazil, Dr. Campos Salles.—*Southern Cross*, Nov. 2.

—The Argentine sanitary board has decreed quarantine against Paraguay, because of a report that new cases of bubonic pest had appeared. This shows that Argentina still holds her antiquated prejudices in spite of the exception made in favor of Brazil. If quarantines are not enforced against Brazil while cases are appearing, why should it be enforced against Paraguay because of such cases?

—A United States consul reports that a stock company was recently organized in Asuncion to cultivate yerba mate in Paraguay. The company has a paid-up capital of \$100,000 paper, or about \$13,000 gold, and was to have started in business in June, 1900. So far as is known, this is the first attempt that has been made to cultivate mate on a large scale, as heretofore the product has been obtained from the yerbales where it grows wild. The production of yerba mate promises to become a paying industry. The consumption of the tea made from the leaves of this herb has attained enormous proportion in the River Plate countries.—*Exchange*.

ARGENTINE CAMP LIFE.*

It must be said that Mr. Bulfin's contribution to the popular Overseas Library is more than a collection of stories, more or less interesting in themselves; it is a character study of rare merit and an introduction to a life wholly new and absorbingly interesting. We have read the two or three attempts to picture the rough life of the River Plate camps—Hudson, Pilling and Cunningham Graham—but somehow they lacked familiarity with it. Mr. Bulfin, however—or "Che Buono" as he is known to the readers of *The Southern Cross*—spent his first years of Argentine life in the "camp," the friend and companion of the gauchos and alien "rough-riders" of whom he is now writing. He knows their life and customs and thoughts intimately, and, what is better, he knows how to tell their adventures just as they would tell them themselves* *Tales of the Pampas*; by William Bulfin. London: T. Fisher Unwin, 1900. 1/6.

around the campfire. There is something of the soil and the wide horizon and the clear blue sky in these pages and it is a pleasure to absorb them.

We have seen some of these stories in *The Southern Cross*, and others as good, if not better, from the same pen, and we may therefore hope for another volume at no distant day. There may be no little monotony in the life of the cattle and sheep herders of the great pampas of the south, but there is danger, and adventure, and romance as well. It is a new life to us; it has its own standards and rewards, but it is worth the study of the student of life just as truly as the life of the wild riders of the American prairies, or of the half savage voyageurs of the frozen north. And it is fortunate that this new land has found so sympathetic and facile a writer as Mr. Bulfin to introduce it to us.

SHIPPING NOTES

—The passengers who left Rio on the 4th inst. by the Lamport & Holt steamer "Hevelius", were the following for New York: Messrs. Allen A. Chisholm, C. F. Hammett, O. D. Robbins, I. Wilson Sprathy, Stewart Iglehurst, and 22 third-class.

—We are favored, says the *B. A. Standard*, with a letter from some passengers by the "Highland Prince" requesting us to make public that Mr. James F. Williams, the chief engineer, was a principal saviour of the passengers and crew, as but for the energy and ability shown by him, there would certainly have been more deaths on board from the bubonic pest. He was doctor, nurse and disinfectant, all in one, and did not allow himself a moment's rest, night or day. He also proved of invaluable assistance to the Argentine and Uruguayan sanitary authorities in helping them to disinfect and restore the steamer to a healthful condition. Honor to whom honor is due.—The captain of the "Julia Park" has presented a claim, through the British legation, for compensation on account of the undue detention to which she was subjected by the sanitary authorities under pretence of disinfection. As we remarked when commenting on the case some little time ago, there are strong grounds for such a claim, and if this course were adopted oftener, it might teach the sanitary authorities to be less reckless in their dealings. Some of our native contemporaries, referring to the case, allege that the captain was to blame, at first pretending that he was going on to Buenos Aires and then deciding to remain here. We have reason to know that there is no truth at all in the statement; on the contrary, the captain was continually signalling for his vessel to be attended to, without result. In any case, wherever the vessel was going, to detain her for disinfection, after she had been 33 days out and all well on board, was a monstrosity for which the authorities responsible ought to be made to pay. We are very glad to see the matter has been taken up, and hope it will be pushed energetically.—*Montevideo Times*, Nov. 1.

COFFEE NOTES

—Less than five years ago the first coffee seeds were introduced into Uganda by missionaries. Now there are extensive crops under cultivation. Last year 100 tons were exported from Uganda, and this year this amount will be greatly exceeded. The quality of Blantyre coffee is said to be the best in the world, superior even to the famous Mocha.—*Commercial Intelligence*.—The heavy receipts of coffee at the port of Santos, in Brazil, are attracting attention in the trade, as well they may. Notwithstanding that the arrivals are much below the normal volume, the total for the two ports is not far below the figures a year ago, when prices were at about their lowest point. The effect of these heavy receipts on prices has been helped by the receipt of estimates pointing to a liberal crop of Rio and Santos coffee the coming season.—*Merchants Review*, Oct. 5.

THE preliminary report of the census just taken shows that the population of the United States now amounts to 76,295,229. The increase during the last ten years has been 21%.

ACCORDING to telegrams of the 7th the presidential elections in the United States resulted in a victory for McKinley and Roosevelt, who obtained 305 electoral votes against 142 for Bryan and Stevenson. McKinley carried 29 states, and Bryan 16. This is a greater victory than four years ago and will probably end Bryan's ambition and the silver craze.

THE following modifications in Her Majesty's cabinet are announced: Lord Salisbury resigns the portfolio of foreign affairs but retains the premiership; Lord Lansdowne retires from the war office and becomes foreign minister; Mr. St. John Brodrick is promoted from the under-secretaryship of foreign affairs to the war office; Mr. C. T. Ritchie, formerly president of the board of trade, becomes home secretary; Lord Selborne becomes first lord of the admiralty; and Sir George Wyndham has been appointed secretary of state for Ireland. The appointment of Lord Lansdowne to the foreign office has aroused much criticism.

BANCO DA REPUBLICA.

The Banco da Republica has issued its balance-sheet for the 31st ult. Comparing this balance-sheet with that for Aug. 31, we find certain changes, some of which we proceed to point out.

The aggregate assets and liabilities at the respective dates were as follows:

Aug. 31 610,526,194\$003
 Oct. 31..... 575,281,217\$424

Decrease..... 35,244,976\$579

Bank's indebtedness to the National Treasury:

Aug. 31..... 45,181,339\$704

Oct. 31 (including 16,996,518\$220 for special exchange account)..... 39,776,991\$398

Decrease..... 6,414,348\$306

National Treasury's indebtedness to bank:

Aug. 31..... ?

Oct. 31. (Treasury bills)..... 6,500,000\$000

Increase or decrease. ?

Bills discounted by the bank:

Aug. 31..... 31,104,169\$000

Oct. 31 (including the above-mentioned 6,500,000\$ in Treasury bills). 25,117,913\$250

Decrease..... 5,986,255\$810

Whether the bills discounted at the date of Aug. 31 included Treasury bills the balance-sheet of that date offers no means of ascertaining.

Deposits:

Aug. 31..... 99,449,768\$486

Oct. 31 (including 7,356,465\$173 not bearing interest).. 54,904,110\$435

Decrease..... 44,545,658\$051

Certified cheques:

Aug. 31..... ?

Oct. 31..... 24,085,656\$110

Increase or decrease. ?

The certified cheques that figure in the balance-sheet for Oct. 31 are presumably those certified during the run on the bank in September. It seems, then, that between Aug. 31 and Oct. 31 depositors withdrew from the bank in money 20,460,001\$941.

Balance in favor of creditors on general accounts current:

Aug. 31..... 17,561,918\$847

Oct. 31..... 296,633\$325

Decrease..... 17,265,285\$522

Among the liabilities of the bank, shown by the balance-sheet for Aug. 31, was the sum of 29,798,625\$206 for sundry accounts. This item is not in the balance-sheet for Oct. 31, but there are several new items which are doubtless component parts of that sum. Among these liabilities are the following debts:—to the London and River Plate Bank, 5,118,518\$600; to the London and Brazilian Bank, 3,000,000\$; to N. M. Rothschild & Sons 4,996,616\$470 (£213,664 16s 11d); to Baring Bros. & Co., 1,139,148\$700 (£48,596 12s. 4d); to the London and County Banking Co., 2,262,383\$970 (£95,239 13s); to Hottinguer & Co., 262,862\$990 (279,745 francs, 42 centimes); to the Commerz und Diskonto Bank, 2,553\$740 (M. 2,108.23).

The public funds belonging to the bank amounted to the following sums:

Aug. 31..... 42,332,059\$079
 Oct. 31..... 34,811,868\$899

Decrease..... 7,520,190\$180

The public funds belonging to the bank on Oct. 31 are classified in the balance sheet for that date as follows:

Bonds of the general government..... 1,239,877\$840
 Bonds of the general, state and municipal governments..... 26,267,971\$979
 British consols..... 6,639,817\$960
 Funding loan bonds..... 664,211\$120

Total..... 34,811,868\$899

These public funds do not include the government bonds in which the bank's reserve fund, amounting on Aug. 31 and Oct. 31 to 11,830,000\$, was invested.

The bonds belonging to the reserve fund and other bonds of the general, state and municipal governments to the amount of 7,832,185\$304 were deposited at the national treasury as collaterals for the bank's debt to the government. Government bonds to the amount of 1,239,877\$840 were deposited as collaterals for the bank's debt to the London and River Plate Bank.

The British consols and the funding loan bonds were deposited with European bankers, to whom the bank owed, as we have already noted, the sum of 8,663,565\$870.

Shares and debentures of banks and companies

Aug. 31..... 59,362,931\$825
 Oct. 31..... 69,323,154\$335

Increase..... 9,960,222\$510

This increase in the amount of shares and debentures is a circumstance for which we are unable to find any explanation.

In the national treasury were deposited as collaterals for the bank's indebtedness shares and debentures to the amount of 23,873,909\$845. As collaterals for the bank's indebtedness to the London and River Plate Bank there were deposited shares and debentures to the amount of 5,000,000\$.

Not from the bank's balance-sheet, but from another source, we learn that the bonds, shares and debentures deposited as collaterals in the national treasury were as follows:

12,182 government 5% bonds of 1895;
 1,313 government 5% bonds (apolices gerais);
 30,000 municipal bonds;
 5,000 debentures of the Santos Dock Co.;
 64,007 debentures of the Sorocabana Railway Co.;

133,610 shares of the same company;
 6,878 shares of the Leopoldina Railway Co. The present market value of these assets is said to be about 17,000,000\$.

In the amount of the balances in favor of the bank on guaranteed accounts current very little change was made between the two dates, the figures being as follows:

Aug. 31..... 73,046,246\$172
 Oct. 31..... 72,973,775\$164

Decrease..... 72,471\$008

The state of these accounts is thus described in the balance-sheet for Oct. 31:

In liquidation..... 51,561,817\$749
 Involved in lawsuits. 23,677,220\$917
 Under negotiation between bank and debtors..... 3,893,498\$995
 Accounts still open.. 43,145,995\$103

122,278,533\$564

Rebate (bonificação) made at reappraisalment prior to Aug. 31..... 49,304,758\$400

Balance..... 72,973,775\$164

In the balance-sheet for Aug. 31 the item of indebtedness to the bank for sundry accounts amounted to 21,861,872\$538. This item is not in the balance-sheet for Oct. 31, in which, however, we find the following that are apparently the principal component parts of that item:

A. Vaz de Carvalho, purchaser of the Lloyd Brasileiro... 9,062,500\$000

Unguaranteed debtors on accounts current 2,565,922\$172

Unguaranteed debtors on general accounts current..... 4,901,019\$662

State treasury of Minas Geraes..... 5,219,041\$402

Total..... 21,748,483\$236

In the real estate belonging to the bank there was no change between the two dates. In the balance-sheet for Oct. 31 this real estate is described as follows:

Plantations..... 6,673,583\$239

Lands (terrenos, perhaps townlots)..... 1,710,001\$915

Railways..... 677,919\$304

Factories..... 1,941,359\$788

S. F. P. theatre..... 1,159,807\$330

Advances to Luiz Soares de Gouvêa.. 17,624\$881

Total..... 12,180,296\$457

Rebate made at reappraisalment prior to Aug. 31..... 2,000,000\$000

Balance..... 10,180,296\$457

In the principals of the bonus loans there was very little change. The increase in the

amount of unpaid interest on these loans is shown by the following:

Aug. 31.....	4,500,258\$520
Oct. 31.....	5,190,229\$670
Increase.....	689,971\$150
Indebtedness of agents to the bank:	
Aug. 31.....	5,490,317\$159
Oct. 31.....	581,324\$025
Decrease.....	4,508,993\$134
Cash balance:	
Aug. 31.....	18,599,462\$689
Oct. 31.....	2,647,378\$749
Decrease.....	15,942,083\$940

In the foregoing we make no attempt to present a complete analysis of the two balance-sheets. Our object is merely to point out certain changes and other circumstances which seem to us to be interesting.

The new balance-sheet strengthens our belief that one of Minister Murtinho's motives for forcing the creditors of the bank to accept payment in 3 per cent bonds was to get possession of the ready money which he hopes to obtain from deposits and from realising on certain assets of the bank. To his successors he will leave the task of finding means for redeeming these bonds.

The *Journal do Commercio* of the 11th inst. publishes the following alterations in the "head office and branches" accounts of the foreign banks located in this capital, as shown by the balance-sheets for October:

On 30th September the Brazilianische Bank owed.....	836,000\$
British Bank owed.....	519,000\$
Banque Française owed.....	2,475,000\$
London and R. Plate Bank owed	24,491,000\$
Total.....	28,321,000\$
London and Brazilian Bank creditor for.....	1,396,000\$
Debit balance.....	26,925,000\$
On 31st October the Banque Française owed.....	1,748,000\$
London and R. Plate Bank owed.	16,557,000\$
Total.....	18,305,000\$
Brasilianische Bank, creditor for.	4,088,000\$
British Bank, creditor for.....	1,332,000\$
London and Brazilian Bank, creditor for.....	2,620,000\$
Total.....	8,040,000\$
Debit balance.....	10,265,000\$

The cash balances on 31st October amounted to 60,668,000\$, against 76,645,000\$ on 30th September. On the same date of last year the credit balance on "head office and branches" account was 6,569,000\$, and the cash balance 54,709,000\$.

THE severe earthquake which occurred in Venezuela week before last seems to have been very destructive. Caracas suffered considerable damage, though but few people were injured, and one small town was destroyed.

RIO DE JANEIRO, NOVEMBER 13th, 1900.

Two months have now passed since the collapse of the Banco da Republica and other banks of this capital—time enough surely to show whether the relief measures of the government are to be of any real assistance. It is to be said, however, that the Banco da Republica only resumed operations on the 5th inst., and that negotiations are still in progress for the settlement of the claims of creditors upon the other banks. But it is a long time to wait for relief, when the very existence of many a commercial establishment is at stake, and especially when failures are alarmingly frequent. Recently one of the most respectable importing houses in this city was compelled to close, and others are scarcely able to meet their obligations. Our inquiries among business men are to the effect that, while trade has improved a little, the situation is as black as ever. Discounts are still almost impossible, and we hear of payments made even with "signed accounts." Unless liberal assistance soon comes there will be an epidemic of failures before the year ends. To repeat what we have before said, the market is in urgent need of money. There is surely enough of it in the country, but it is not in circulation. Were there more confidence in the situation and were the government more liberal in its treatment of trade and industry, much of this hoarded capital would seek employment, and money would be easy. As it is, many industries have closed and their employés are earning no wages, and many commercial houses have closed altogether. In bad times money is always hoarded; the logical remedy therefore is to bring about good times.

HAIR SPLITTING.

We are not surprised that the *Rio News* should take much exception to the procedure of the Brazilian government in relation to the liquidation of the Banco da Republica. Our contemporary is always an energetic censor of the Brazilian finances, and this opportunity was one not likely to have been allowed to pass. But we must admit to some sentiment of wonder when we find our Rio colleague suggesting, as it appears to us, that the "perfect cure" for all the evils of a critical financial situation is the universally discredited recourse to a fresh emission of paper currency. "Perhaps," says the *Rio News*, "the minister of finance now sees what a mistake he has been making by burning money. Burning money. This is a revelation. Here, in England, we have been under the impression that it was only paper currency that was being incinerated by Dr. Murtinho, and that it was thus simply reducing the national indebtedness by means of a most effective destruction of its obligations to the public in this form.

In a leading article on this subject, our contemporary also observes:—

"The 25,000 contos to be advanced for discounts will not help us out of the difficulty. It must be remembered that this market is thoroughly exhausted, and we need money to start commerce and industry going, in order

to bring general relief. It is money we want, first, last, and all the time."

What the *Rio News* means by "money" we now know, and so we have no difficulty in understanding from the above that the Brazilian government is urged therein to adopt a policy, not merely in arrest of the continued incineration of paper—for which, indeed, much may be said—but positively in the direction of a renewal of those issues of fiduciary currency which have previously done so much to compromise the financial position of the republic. We will not question the sincerity of our contemporary in expressing this view, so greatly in conflict with our most accredited monetary authorities, but we venture to dispute its practical wisdom. The best way of curing a wound is not by clapping a blister upon it. For ourselves, we wholly dissent from our contemporary's opinion in this respect, and we are glad that there is no probability of his advice being followed by the Brazilian government. It is evidently fixed in its determination to put an end, we hope for ever, to the mischievous era of paper currency emissions.—*South American Journal*, Oct. 20.

Our London contemporary must have known that in speaking of burning money, we did not mean gold and silver, but just ordinary currency, or paper money. To base an argument on the use of a word—and mistaken use, if you please—is surely a waste of time. If the editor of the *South American Journal* will take the trouble to look up the definitions, he will find that paper money can be termed money, but we certainly should not insist upon that in the case of inconvertible paper, because in a general sense money is a "standard of value and medium of exchange." Inconvertible paper may be a medium of exchange, but hardly a standard of value.

However, no matter what the authorities say, it is all we have, and we are paying our taxes with it to support an army of parasites who have nothing better to do than applauding and excusing an arbitrary and extravagant government. It may be a poor excuse for money, but the *South American Journal* has been the staunch defender of all the administrations which issued it and can not now pretend to condemn the stuff.

As for the assertion that we favor and advise issuing more paper money as a solution for the present crisis, our contemporary states what he knows to be untrue. We have never favored nor advised any such thing. We have condemned the burning of paper money, simply because we hold that the minister of finance has no right to do so until all his obligations are met and he has a clearly-established surplus. To burn currency while thousands of contos of unpaid accounts are awaiting settlement, is clearly an act of dishonesty. Morally speaking, the money—pardon, the paper money—does not belong to him, but to his creditors. In private affairs the debtor who destroyed his money or other property before satisfying his creditors, would be considered guilty of a dishonest act, and we do not recognize any different code of morality governing the affairs of nations.

We trust the *South American Journal* will excuse our plain speaking. We are quite prepared to defend any position which we have really assumed, but we do not care to be loaded with opinions which we do not hold just to give a government organ opportunity to belabor us.

IN AN item published in our last issue regarding a political disturbance at Jundiaby, São Paulo, it was stated that the chief of one of the factions is Deputy Adolpho Gordo. This gentleman has informed us that the statement is incorrect and asks us to correct the mistake, which we do with pleasure. The chief of the faction in question is Col. Antonio Joaquim Pereira Guimarães, known popularly as "Coronel Gordo", and his followers as the "Grupo gordista". The name is an unusual one, and it is from this that the mistake arose. We are informed by Deputy Adolpho Gordo that he has no connection whatever with this faction, nor with the Jundiaby conflict.

THE Ibero-American congress was formally opened at Madrid on the 10th inst. with a welcoming address by Marquis Aguilar de Campos, minister of foreign affairs. The Mexican delegate, Sr. Sierra, responded in behalf of the delegates and affirmed the need of union among the Latin republics for the defence of their independence. The impression in Madrid seems to be that the congress will lead to a Latin-American alliance. In view of reported proposal of Chili for the

—Senator Quintino Bocayuva denies that he received pecuniary assistance from the government or from any other source for accompanying President Campos Salles to Buenos Aires. It had been stated by Deputy Fausto Cardoso that he had received 50,000\$, and the latter insists that his statement is correct, notwithstanding the senator's denial.

deaths in that period as 545, which is a very low rate for a city burdened with at least three epidemic diseases. The deaths from infectious diseases were: pulmonary consumption 110, small-pox 43, beri-beri 10, bubonic pest 9, yellow fever 2, typhoid fever 5, measles 3, influenza 2, and dysentery 2.

—Some of the European papers have been struggling manfully to make the best of the situation out here, and in some cases have accomplished more than we had any right to expect, as the following clipping from a London paper (verbatim) will show:—A despatch has been received in Paris from Rio de Janeiro, stating that it is officially announced that Mr. Petersen, Senhores Custodio and Almeida, and Dr. de Magalhaes have been appointed directors of the Banco da Republica.

—After a very painful illness Admiral Eliezer Coutinho Tavares died in this city on Sunday, the 11th inst., just two days after completing the 56th year of his life. The deceased officer distinguished himself in the Paraguayan war and in the naval revolution.

—If ex-Gov. Luiz Vianna with all his influence, energy, courage and ability cannot carry an election against the government, what hope can any one have of being more successful? And, if the success of the government is a foregone conclusion, are not elections a mere farce? And, if elections are a mere farce, how are the people to obtain a peaceful solution for their political questions?

—Deputies Fausto Cardoso and Rivadavia Corrêa in the chamber on Saturday called each other infamous and then fought about it. Only two blows, which seem to have done no harm, were exchanged. The belligerents were then separated and congress went into secret session in which it was resolved that the incident should be omitted in the official record of the proceedings.

—In spite of closing up on Tuesday afternoon last, of calling out the troops and keeping them under arms all the afternoon in the broiling sun, of sending out to the harbor entrance the Vice-President and his ministers in a cockle-shell yacht and two ferry boats loaded with admirers, and in spite of the thousands of curious people who thronged the water front to see the spectacle, the President and his white squadron failed to put in an appearance, and did not arrive until the next morning.

PAYSANDU CRICKET CLUB.

LADIES vs. GENTLEMEN 1ST NOVEMBER 1900.*

This is the first time that a team of ladies has played against gentlemen on the Paysandu cricket ground, and the event was such a success that we shall expect to see it repeated every year.

The Ladies, under the captainship of Mrs. D'Arcy won the toss and elected for first innings: they were assisted at the wicket by Mr. R. H. Robison. Considering the little practice they have had in this sport their total score of 79 was a most meritorious one.

* The report of this interesting match was handed in too late for insertion in our last issue, to our great regret.

they were bound to win, but, unfortunately for them, time was drawing to a close and, in their anxiety, either to win themselves, or, at least, not to leave a drawn game, their last wickets fell very rapidly.

Miss Skerman's bowling was most successful, she taking no less than five wickets, at a cost of only 14 runs, and three of the batsmen being stumped from her bowling.

We were glad to see the veteran umpire, Mr. Maude, as this was a guarantee to us that no unfair play would be permitted.

BUSINESS NOTES

—After having risen on Wednesday to 71\$ Banco da Republica shares declined and were sold on Saturday at 58\$.

—On Wednesday 5% currency bonds (apolices geraes) fell to 710\$ and certificates to 680\$. They have since rallied and on Saturday there were sales of bonds at 754\$ and of certificates at 700\$.

—On Saturday 7 of the new 3% bonds were sold at the rate of 650\$. If the transaction was genuine, we congratulate the seller, who apparently thus profited by the beginning of an attempt to bull the market.

—It seems to be decided to give the name of inscripções to the new 3% bonds. They are signed, we understand, by the two directors of the Banco da Republica and bear the fac-simile signature of the minister of finance.

—The Jornal do Commercio of this morning gives particulars of the discovery of a defalcation of over 250,000\$ in the caixa da amortização (redemption bureau). The defaulter is one of the cashiers, named Arnaldo Camara. An investigation is now in progress.

—On motion of Deputy Fausto Cardoso the chamber resolved on Friday to ask for a copy of the contract engaging Mr. Petersen as director of the Banco da Republica. That deputy had also moved to inquire whether the government is authorised by law to issue securities entitled inscripções, but this part of his motion was rejected by the chamber.

FINANCIAL NOTES

—A telegram of the 11th inst. reports that the state government of Pará has succeeded in obtaining a foreign loan of £ 500,000.

—«I've been thinking,» observed Smalwyt, «that it would be a good idea to send him away again.» «Send whom away?» we asked. «Why, the President. Have n't you noticed how the revenue went up during last month? If his going away for a fortnight can produce so good an effect, what might we not expect from a year's absence?» And Smalwyt actually glowed with the discovery he had made.

—The following returns of customs receipts for the month of October, in addition to those published in our last issue, have been made public:

Table with 3 columns: Location, 1900, 1899. Includes Pernambuco, Victoria, Penedo, Macalié, Bahia, Rio Grande do Sul, Jaraguá, Parahyba, Uruguayana, Santa Catharina, Aracajú, Parnahyba.

—Deputy Fausto Cardoso in the chamber on Friday moved to ask for information in regard to the money spent by the government on the press. This motion was in discussion on Saturday when the proceedings of the chamber were interrupted by a fight between the author of the motion and Deputy Rivadavia Corrêa.

MARKET REPORT.

Rio de Janeiro, 13th November, 1900.

Exports.

Coffee.—There was a marked decline in the volume of business effected during the past week, while Santos continued to sell freely. The reported sales were only 36,000 bags, while the entries were 62,824 bags and the shipments 45,888 bags. The firmness with which coffee is held here is certainly helping Santos to get rid of her large holdings, and will in the end compel local dealers to give way under the pressure of large stocks. The uncertainty of exchange also contributes to check business, even with the small concessions in price which were made during the week.

Advices from abroad show that the sales during the week were: New York 168,000 bags, Havre 102,000, Hamburg 62,000 and London 55,000—total 387,000 bags, against 594,000 in the corresponding week of last year, and 317,000 in the preceding week.

The detailed movements of our market during the past week were as follows:

Ruling prices during the week for N. Y. Type No. 7 at Rio, and for Good Average at Santos, with daily reported sales at the former market.

The receipts for the past week were 56,604 bags against 66,764 bags for the previous week and 62,056 bags for the week before.

Brokers' quotations, according to New-York types were the following:

Table with columns: No., Nov. 10, Nov. 3. Rows for No. 6, 7, 8, 9.

SEA SICKNESS

28 cases were treated on board s.s. "Olin-da" by Dr. Ernani Pinto with Tinture of Nectandra and of these, 22 cases were completely cured, and the remaining four became much better.

The illustrious naval surgeon Dr. Henrique Mangeon says that "during voyages on men of war I have had occasion to use Tinture of Nectandra Amara of Mr. Antero Leivas against sea sickness and always with excellent results.

Numberless testimonials of travellers justify the results obtained by these distinguished physicians, with the Tinture and pills of the Nectandra Amara against sea-sickness.

In order to facilitate the use of this medicine a prospectus accompanies each bottle written in the Portuguese, English and French languages.

N. B. The Nectandra Amara pills are formulated with the same doses of the Nectandra, in order that they may be sent by post all over the world with the least possible delay to supply the want of the Wine Elixir and Tinture of Nectandra Amara which are liquid and cannot, therefore, be transported by the same rapid and sure means.

For sea sickness, nausea in pregnancy impoverishment of blood, weakness of the legs and convalescence after long and serious illness, the pills should be ground and dissolved in a small glass of Port wine in order that they may be taken as a liquid to insure a prompt action; it is also to facilitate for adults and children who cannot take dry pills, and in this case they can be dissolved in pure water if no wine is to be had.

Persons who have no connections here and who may desire to have these most useful pills can obtain them by applying direct to the proprietors who undertake to remit orders by registered post to any part of Brazil, or abroad for the small sum of 2\$800 per box, 14\$500 for 6 and 28\$000 for 12 boxes.

THE RIO NEWS.

This paper is now in its 26th year having originally been published as *The South American Mail* and *The British and American Mail*. It assumed its present title at the beginning of April, 1879, when it was published three times a month. From a tri-monthly it has been changed to a weekly publication, and from four pages it has been increased to twelve.

As an advertising medium *THE NEWS* occupies an exceptionally advantageous position. It circulates widely throughout Brazil, and also in Europe and the United States. Its subscribers are principally business men interested in Brazilian trade, industries and investments. No other periodical, even with much larger circulation, can offer better inducements to advertisers who seek the attention of these classes.

All communications should be addressed to the Editor and Publisher, Caixa do Correio, 258, Rio de Janeiro.
